Basic Firearms Instructor Course

This course covers pistol and shotgun training. Participants should have an advanced working knowledge of weapons used and must pass an initial qualification course with a score of at least 80% on the first day of training to continue the course. Students must pass a written examination and shoot a qualification score of at least 90% to successfully complete the course. This is not a beginners course. Topics include range management; lead and hearing safety; range safety; and analysis and correction of shooter problems. You will learn the skills necessary to be a firearms instructor and instruct for your department. This is also an approved course necessary to be licensed as a firearms specialist through POST. You should already possess an excellent mastery of safe weapons handling skills and be physically capable of performing police combat shooting courses. This course is not designed to teach you how to shoot, but is designed to teach you how to instruct others to shoot as a law enforcement professional. This will be a fast paced course that will require study and preparation outside the classroom. There will be a two day rifle instructor course offered at a later date with this course being a prerequisite.

Due to the interactive and practical nature of this course, class size is limited to 20 students.

PRE-REQUISITES:

Students must be a licensed Peace Officer or employed in the law enforcement field (per-approval required); already trained and qualified in pistol and shotgun. Three plus years of law enforcement experience is recommended.
